

EXPENDITURE SUMMARY

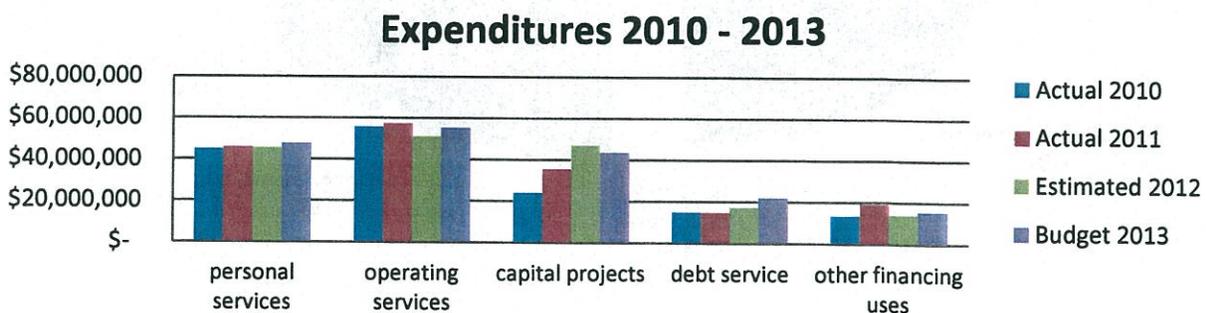

The annual budget for Columbia County, GA, for FY 2013 provides funding to maintain current levels of service, with an adopted decrease in the millage rate of 0.50 mills, while reducing operating costs and capital outlay where possible. The annual budget for all funds totals \$183,982,558, reflecting a net increase from the fiscal year 2012 adopted budget of \$5,542,272, or 5.50%. This net increase is primarily due to (1) construction of an exhibition center and other capital projects and (2) projected completion of the broadband utility in October 2012. The Columbia County Broadband Utility (Communications) Fund was established in fiscal year 2011 to account for the \$13.5 million grant received under the American Recovery and Reinvestment Act of 2009. The total estimated cost of the project is \$18 million.

The General Fund budget increased \$868,884 from the fiscal year 2012 adopted budget, or 1.58%, primarily due to an increase in personnel costs of \$717,531, or 2.06%. Other than in capital projects funds and the Communications Utility Fund as mentioned above, no other significant changes occurred in the budget.

Other budget highlights include:

- Due to uncertain economic times, all departments were asked to prepare their budgets using the zero-based method and maintain operating budgets, excluding personnel, at current levels.
- General Fund departments should anticipate no new hires unless restructuring occurs that reduces expenditures and vacant positions will be reviewed by the Management Review Team before being filled.
- No merit increase will be budgeted until the tax digest is received and sales tax collections are further monitored. Any merit increase approved will be taken from Contingency.

Expenditures consist of five categories: personal services, operating services, debt service, capital projects, and other financing uses.

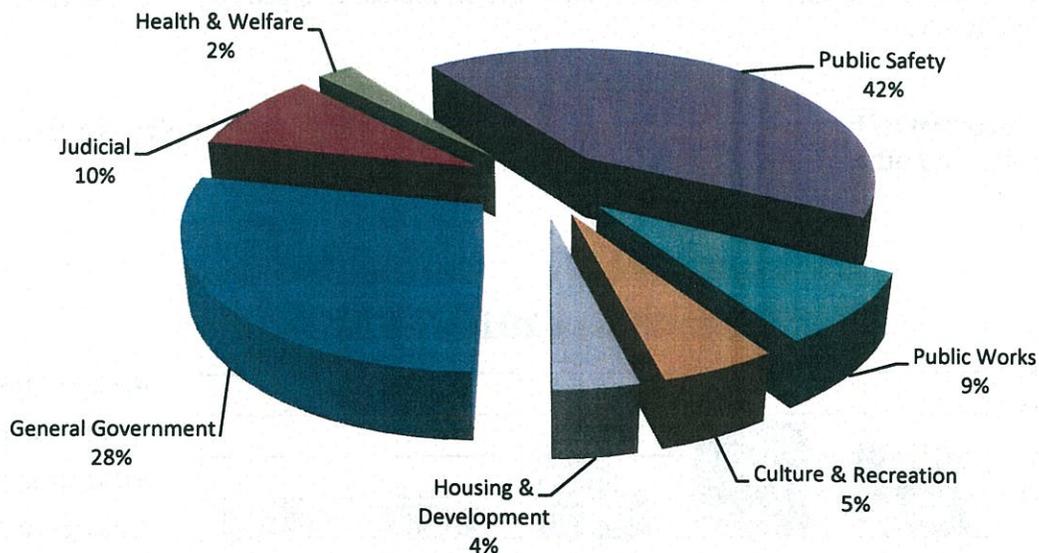

GENERAL FUND

The General Fund budget increased \$868,884 from the fiscal year 2012 adopted budget, or 1.58%.

- The increase in General Fund expenditures consists of an increase in personnel costs of 2.06%, an increase in new positions and promotions of 150.88%, a decrease in operating expenditures of 1.15%, a decrease in contingency of 4.57%, and an increase in capital requests of 35.48%.
- No interfund transfers were included for FY 2012/2013.
- New personnel requests within the General Fund consist of 5 new positions in the amount of \$223,861, reclassifications and promotions in the amount of \$57,734, a 35 day delay in replacement of vacancies for an anticipated savings of (\$232,000), no merit increase, funding for recommendations included within the salary study in the amount of \$15,000, funding for a "Healthy Lifestyle" program in the amount of \$25,000, a 2.5% increase in medical rates in the amount of \$126,765, and funding for wellness physicals in the amount of \$90,000. New hires are budgeted at a rate of "entry only" and are effective July 1, 2012. The combined cost of these additional personnel and benefit requests is \$306,360.

BUDGET HIGHLIGHTS

The Human Resources team is currently comprised of 50% (3:6) degreed team members, one team member is Microsoft Office Applications Specialist and Administrative Assistant Specialist certified with a degree in Business Administrative Technology, and one team member is a Certified Administrative Professional. The team will continue pursuit of educational opportunities through various resources including higher education, continuing education, and membership in professional organizations focused on public sector human resources discipline.

The Assistant Human Resources Manager is recommended to be reclassified from Grade 25 to Grade 26 with no salary adjustment. This will place the position within an equitable grade in the classification system based on the level of responsibility, dimension and scope and there is no budget impact. In addition, the Human Resources Assistant is recommended to be promoted to Human Resources Advocate and move from grade 15 to grade 16. The incumbent has assumed more complex position responsibilities and become responsible for more technologically advanced tasks. The Human Resources Department FY12-13 operating budget was decreased to accommodate this promotion with no budget impact.

The Human Resources Department is responsible for management oversight of the medical fund. Currently, the medical fund balance is maintaining fund levels between \$1.3-\$1.5 MM. Economic indicators for professional and technical medical costs reflect increased financial impact to the fund due to increased health care costs, increased population and plan utilization. Federal imposed changes may also affect the fund within 12-18 months. Therefore, 2.5% increase in the discounted premium and 10% increase in the non-discounted premium above the discounted premium is recommended for 2013. These recommended adjustments will maintain a healthy fund balance and provide renewal negotiation leverage.

HUMAN RESOURCES DEPARTMENT

FUND/DEPARTMENT NUMBER: 1011

Aggressive wellness initiatives were implemented and are recommended to continue to enhance the wellness program, providing more education and vendor participation and communication. The fitness reimbursement program was successful again this budget year and is requested to continue in the new budget year.

BUDGET HIGHLIGHTS

The Tax Assessor's Office has 2 personnel requests:

Appraiser I, Grade 18: Currently, the Tax Assessors Office has a ratio of 5,583 residential parcels per residential appraiser. The Department of Revenue recommends 3,500 to 4,000 parcels per appraiser.

Promotion and Reclassification: Jeremy Roes, Grade 24 to 25: Will take on additional responsibilities of supervising two Personal Property appraisers and the Office Manager. He holds an Appraiser IV certification and has all authority of the Chief Appraiser, in her absence. We desire to change his title to Deputy Chief Appraiser, to conform with a more widely recognized and accepted title for positions such as this one throughout other counties in Georgia.

If the Appraiser I position is approved, the monies to purchase the required equipment (computer, desk phone, laptop, digital camera and vehicle GPS unit) have been requested in the minor property line code.

The communications line code has been increased to allow for 2 monthly cell phone plans. Pending the approval of the Appraiser I position, money has also been requested for a cell phone plan, vehicle GPS monitoring subscription and air card for the laptop.

The Tax Assessor's Office is asking 3 new Ford Escape vehicles to replace 2 current vehicles as recommended by Fleet Services. During a budget work session with the County Administrator and staff, 5 vehicles were recommended to be budgeted in the FY 2011/2012 budget; however, only 4 vehicles were actually input. Therefore, we are requesting the vehicle be placed into the FY 2012/2013 budget.

MAGISTRATE COURT

FUND/DEPARTMENT NUMBER: 1215

MISSION STATEMENT

The Magistrate Court is a venue for the professional resolution of disputes and enforcement of the civil and criminal laws of the State of Georgia and Columbia County.

DEPARTMENT DESCRIPTION

Every county in Georgia has a Magistrate Court by operation of the Georgia Constitution and Georgia Statutes. The Magistrate Court of Columbia County is made up of three distinct groups- the Clerk's Office, the Marshal's Office and the Magistrate Judges. All three groups fall under the direct supervision of the Chief Magistrate and are vital to the ability of the Magistrate's Office to function properly. There are presently 16 employees of the Magistrate Court, including the elected Chief Magistrate.

The Clerk's Office handles recording and scheduling of all criminal and civil cases in Magistrate Court. The Clerks handle the operation of the Magistrate's Office and process the vast number of filings that occur within the Court. The Clerks also draft all Court Orders, process garnishment payments, prepare default judgments, issue calendars and subpoenas, schedule court reporters, schedule probation revocation hearings, process bad check citations, oversee the office accounting and assist with the management of the budget which is set by the Board of Commissioners.

The Marshals are responsible for service of all documents or papers relating to Magistrate Court, including personal service of summons, subpoenas, evictions, garnishments, bad check citations, Rule Nisi Orders and other documents as required by the Court. The Marshals also are required by law to oversee evictions to ensure that the process is peaceful. They also work with the parties in civil cases to carry out the orders of the Court. The Marshals provide courtroom security for Magistrate Court for the multiple hearings that are conducted every week.

The Magistrates are on duty 7 days per week, 24 hours per day to consider arrest and search warrant requests from law enforcement officials. Requests for warrants by private individuals are considered by way of a Warrant Application Hearing. The Magistrates preside over those pre-warrant hearings on a bi-weekly basis. The Magistrates make initial determinations relating to bond and are responsible for the setting of bond in most criminal cases. The Magistrates perform First Appearance Hearings and Extradition Hearings on a regular basis. The Magistrates also perform wedding ceremonies for citizens.

MAGISTRATE COURT

FUND/DEPARTMENT NUMBER: 1215

WORKLOAD MEASUREMENTS

The Magistrate Court has jurisdiction over criminal and civil matters. Within this report, we have attempted to give an accurate overview of the activity of the Court during 2011.

Under the heading of civil matters, the Court handles general civil suits, dispossessory actions, garnishments and mechanics liens/abandoned motor vehicles. Each civil matter requires court personnel to docket and manage every document that is filed with the Court. This also includes the issuance of subpoenas, preparation of hearing notices, preparation of court calendars, docketing and entering miscellaneous litigation and preparing court orders. Some cases or filings require a hearing by the Court to resolve the case which requires court personnel to attend the hearings. However, not all civil cases require a hearing. Within the context of civil actions, the Marshal's Office must attempt to serve various types of documents, including the enforcement of the Court's Orders. It is impossible to estimate the amount of time that each case requires from Court personnel as every case is different. The civil matters addressed by the Court in 2011 appear below:

- Number of new civil cases filed- 1,789
- Number of dispossessories filed- 1,124
- Number of garnishments filed- 368

Private Citizens may also seek criminal arrest warrants through a process that requires a Warrant Application Hearing prior to any warrants being issued. There are several duties of the Court which are related to the issuance of arrest warrants to include the consideration of bond, First Appearance Hearings, Extradition Hearings and Preliminary Hearings.

Also within the heading of criminal matters, Magistrate Court is charged with the responsibility of hearing misdemeanor deposit account fraud matters and county ordinance violations. Defendants who are found guilty of such violations are subject to penalties and frequently are placed on probation to avoid incarceration. The Marshal's Office is charged with the responsibility of serving various papers relating to criminal matters, including citations, subpoenas, Rule Nisi Orders, warrants and certain hearing notices. Fleet maintains an automated database which provides all of the various departments with data to assist in repair cost analysis and replacement decisions. Fleet also develops and supplies the departments with specifications for new fleet vehicles and equipment on an as needed basis. BUDGET HIGHLIGHTS

Budget Reduction Impact

As the figures and chart below shows, we have experienced substantial budget cuts within the last three years. This drastic cut in State Grant-In-Aid has a direct impact on the daily lives of the families who are in the greatest need of Public Health services we provide. We are currently working with minimal staff due to the budget cuts while the population of Columbia County is rapidly increasing and the need for Public Health services are steadily increasing due to the state of the economy. With any additional cuts or major increase in expenditures, we will have to cut or furlough staff, which will be a direct impact on the excellent quality of services we provide to the Citizens of Columbia County. We have streamlined our expenses to only the essential needs to provide and maintain current services.

BUDGET HIGHLIGHTS

The reduction to our county budget would greatly affect the wellbeing of the Columbia County families and children that we serve. The Department of Human Services/DFCS has been experiencing state budget cuts as well. We are currently working with minimal staff due to a hiring freeze while our case loads increase daily due to the state of the economy. Our Office of Financial Independence staff has experienced families applying for benefits who have never had the need before to request our services. Also our Social Services staff is experiencing an increase in workloads as a result of families not being able to provide for their households and/or reacting to their financial stress in a negative manner which have placed the children in neglectful or abusive situations. The funds provided by the county for operating expenses assist the staff in providing the families with the quality customer service that Columbia County is held in high regards for.

Our county budget is utilized to meet the needs of our foster children. Without these supplemental funds, our children would not have the same basic benefits that our own children have relating to clothing, medical, and incidentals needs. Also, our families whose situations do not meet the criteria for maltreatment are in need of general assistance as a source of prevention to avoid their status from becoming neglectful. This assistance also provides a stepping stone to improving the standard of living for the families in order to remain productive within the community.

DEPARTMENT OF FAMILY & CHILDREN SERVICES

FUND/DEPARTMENT NUMBER: 1712

The overall impact of a budget reduction will directly affect the daily lives of the families and children who are in the greatest need of services. When services cannot be provided properly, the community as a whole suffers.

Mobile Radios - \$9,950

In September 2009 the Georgia Department of Transportation approved and obligated funds to Columbia County Public Transit under the American Reinvestment and Recovery Act. A portion of these funds were allocated to upgrade the radio communications for Public Transit for many reasons including satisfying the narrowbanding requirement. Since the Senior Center vehicles and personnel are used interchangeably with Public Transit personnel due to mission, costs, efficiency and regulations set forth by Georgia Department of Transportation and Columbia County, the radios use by the Senior Center must also be upgraded to satisfy the narrowbanding requirement. An estimated \$9,950 is requested to upgrade the radios to make the entire communications system narrowband capable and ready.

BUDGET HIGHLIGHTS

There is an ever-increasing demand for data and addressing from both internal and external customers. With the continual parcel adjustment and update project, the GPS and database management tasks, the infrastructure inventory and information distribution has greatly improved. Addressing in the GIS department has allowed for the entire land records process to be streamlined from start to finish. The next orthophotography will be captured in the spring of 2013 and will be completely implemented in the 12/13 budget year, if not earlier, to assist with tax assessment, development, site location analysis, emergency response, as well as other uses. Cityworks Asset Management will continue to be implemented for Water Utility and Roads and Bridges. The use of Maps Online has increased greatly for both the staff and the public, and this five (5) year old website will be upgraded to use current technology and operating systems. The speed and amount of information that is available online has improved, as well as the ease of use and flexibility of the GIS applications. GIS data holdings continue to be refined and maintained.

FORESTRY SERVICES

FUND/DEPARTMENT NUMBER: 1613

BUDGET HIGHLIGHTS

- The forestry unit currently has the lowest budget in the county, most of it is contractual.
- Employment represents minimum staffing to meet obligations.
- Request the replacement of the Chief Forester's Truck, as follows:

Requesting a ¾ ton, Extended cab, Short bed, 4X4, Diesel engine with automatic transmission and air in an XL (work truck) package.

Note from Forestry Ranger: This new vehicle would replace a 2001 model purchased for Forestry by the county in 2001. It has 118k miles and has the smallest gasoline v8 4.6 motor Ford makes. By 2012 we could easily have 140k plus miles on it. This truck is deficiently under powered for our application, i.e. idling in heat (wild land fire) for extended periods of times 30 min. or more, and with the weight of water, the tank it's self, hose reel, water pump, miscellaneous tools i.e. hoses etc., and sometimes pulling a trailer with an ATV. I know this truck has reached the 1/2 ton rating thus making it hard to respond on take off's, plus stopping it with the extra weight. Adding to poor fuel mileage and repairs cost now and into the future. I hope this helps. P.S. this is a good light duty truck but it has out grown light duty.

(The target for trucks to come up for review by Fleet Services is 150,000 miles with extensive maintenance and costs.)

Due to the extreme heat last year we experienced a drop in visitation. But will extend our focus to outside the center to reach out to others living and visiting the CSRA to increase the visitation numbers and encourage spending in Columbia County.

BUDGET HIGHLIGHTS

One significant impact on future budgets to consider is that as the county continues to grow and expand its road network, we must provide for additional personnel/equipment. The number of traffic control devices and the complexity of the operation of them will require highly skilled staff to continue to maintain and operate this equipment at a satisfactory level. We have the opportunity to manage our overall system with much more efficiency, as with our Traffic Control Center, but additional personnel must be provided for in order to accomplish our task.

Another important impact to consider is that, as we continue to implement our overall sign inventory/maintenance program (as required by FHWA), we will possibly have to fund additional equipment/material/personnel to provide this necessary operation. As with the other traffic control devices, the number of signs will continue to grow as the county expands its road network.

BUDGET HIGHLIGHTS

The slow economy is still affecting the department. Bookings have hopefully leveled out but with the high gas prices, a second economic slump could further affect our rentals. Opening the ETCP has increased our expenditures slightly as will the Gateway Exhibition Center. Marketing to existing clients has already begun for the Exhibition Center but will have to be pursued aggressively to introduce the new Exhibition Center to a new market.
